KWC DVS Miranit Triple Quadro Wash Basin

Product Code: ANMW431

The KWC DVS Quadro triple wash basin unit is manufactured from the strong and durable MIRANIT resin-bonded mineral material, finished in a smooth, non-porous Alpine White gelcoat that resists temperatures up to 80°C. Its seamless design and easy-to-clean surface make it ideal for busy school washrooms where hygiene and durability are essential.

This wall-mounted triple basin features three wash basins in a 2100mm long unit with a contoured rear edge, a three-sided apron, and an integrated back panel with pre-formed fixing holes for secure and stable installation. A wall mounting kit with hanger bolts and dowels is included - please check your wall type to ensure compatibility before fitting.

Each basin comes with a pre-drilled 35mm tap hole for quick and simple tap installation. Designed to withstand daily use, the high-strength, fracture-resistant material provides reliable, long-term performance in demanding school settings.

Delivery

In stock, lead time will be 3–5 days.

Tech specs

Material: Miranit resin bonded mineral material
Basins: Three wash basins
Colour: Alpine White
Lengths: 2100mm (also available in 600mm for 1 user and 1400mm for 2 users)
Depth: (front to back): 530mm
Height: (top to bottom): 125mm
Waste fitting: 32mm with overflow per basin
Tap holes: one single 35mm tap hole per basin
Fixings: wall fixing bolts and rawl plugs (make sure these are suitable for your wall before use)

Extras

Complete the look of your wash basin with the following extras:

Taps
Time-flow taps
Lever-operated mixer taps
Infrared basin taps

Miscellaneous
Stainless steel deck or wall mounted soap dispensers

Paper towel dispensers in stainless steel

Installing a thermostatic water mixing valve will protect your users from scalding and ensure an agreeable hand-washing temperature. We would recommend a TMV3 for this purpose

For a more traditional look, we also stock a range of trough sinks in durable stainless steel.

MIRANIT products are crafted from a single mould without the use of adhesive seams or joints, resulting in a sleek, seamless finish. Known for their exceptional stability, elegant appearance, and long-lasting durability, these products feature a smooth, pore-free Gelcoat surface that is hygienic and easy to maintain. The name MIRANIT represents a robust composite material made of approximately 80% natural minerals—such as marble, sandstone, and quartz sand—and about 20% high-quality unsaturated polyester resin. Quartz, one of the hardest substances found in the earth's crust, contributes to the material's strength. When combined with the resin, the result is a highly stable, formable compound ideal for precision cast moulding.
