

Non Concussive Time Flow Swan Neck Tap

Product Code: SNTAP

This swan neck tap is operated by a time flow press button. The swan neck makes the tap easy to wash hands and is also used as a very robust bottle filling tap.

The press button operation is easy to operate by users of all ages and the time flow operation prevents the taps being left running and wasting water.

Delivery

From stock typically 1 to 2 working days

Tech Spec

2 years manufacturers warranty (warranty will not apply in cases of debris inside of the tap).

To ensure the proper functioning and longevity of this unit, a Y-strainer must be installed as part of the water supply system. The Y-strainer is essential for protecting the internal components and maintaining the correct flow characteristics of the tap. Failure to install a Y-strainer will result in the warranty being void.
