Wall Hung Stainless Steel Toilet

Product Code: WHT

Our wall hung stainless steel toilets offer sturdiness, reliability and ease of maintenance in one cost-effective package. Stainless steel is famed not only for its toughness and resistance to corrosion, but also for being straightforward to clean and maintain. It's also highly resistant to vandalism.

This toilet can be installed onto an in-wall mounting frame or onto a duct wall; both methods result in a highly stable finish. The concealed cistern and minimalist design of these stainless steel wall hung toilets mean that they take up very little room, making them especially suited to school washrooms where space is at a premium.

Each stainless steel wall hung toilet can be supplied with or without a plastic cistern and black plastic seat; please see 'extras' for further details. You'll also be pleased to learn that these toilets satisfy the water usage requirements of both the Water Supply (Water Fittings) Regulations and the British Standard, which means they're also good for the environment.

Delivery

From stock typically 1 to 2 working days
