Wall Mounted Bottle Filler

Product Code: WMBF

These wall mounted bottle fillers offer a convenient source of fresh clean water for your pupils to refill their water bottles.

With the increase in publicity on single use plastic waste there is no better time to encourage your pupils to use refillable water bottles. The stainless steel bottle filler is compact with a bottle filling recess to minimise splashing and water ending up on the floor. Easy to use with a simple push button on / off valve. The valve turns off instantly when the button is released to prevent the waste of water.

Delivery

From stock 1 to 2 working days

Tech Specs

Height: 545mm

Width: 350mm

Front to back: 85mm

To ensure the proper functioning and longevity of this unit, a Y-strainer or filter must be installed as part of the water supply system. The Y-strainer / filter is essential for protecting the internal components and maintaining the correct flow characteristics of the tap. Failure to install a Y-strainer or filter will result in the warranty being void.
