Pillar Floor Standing Bottle Filler (Non-Chilled)

Product Code: PBF-A

These stylish cost-effective units are perfect for saving space in your school. The rounded radius front corners and attractive satin finish make them ideal for use in schools, sixth forms and colleges.

Convertible to a wall mounted fountain by removing the back panel.

Constructed from hardwearing stainless steel, these bottle fillers come with WRAS approved bottle filling faucet to prevent the vandalism and accidental damage that can occur with swan neck designs. Each unit is fitted with a flexible waste pipework and 1/2 inch female connection on the inlet.

Delivery

Typically 1 to 2 working days

Tech specs

Material: satin finish stainless steel
Width: 200mm
Depth (front to back): 200mm
Height (top to bottom): 1070mm
To ensure the proper functioning and longevity of this unit, a Y-strainer or filter must be installed as part of the water supply system. The Y-strainer / filter is essential for protecting the internal components and maintaining the correct flow characteristics of the tap. Failure to install a Y-strainer or filter will result in the warranty being void

This unit does not have a built-in chilling system and will dispense water at the incoming mains water temperature, remote chillers are available

Bottled water: the high price of convenience

Bottled water may be convenient, but even the cheapest brands are hugely overpriced compared to water from a water fountain or bottle filling station. Nor is bottled water of a higher quality - in fact, most of it is just purified tap water, meaning that most of the money you pay for it goes on the packaging.

The plastic bottles themselves are also harmful to the environment and are a constant source of litter in school playgrounds.

Related products

Our combined bottle filler and drinking fountains are also available in junior dimensions, perfect for infant schools, nurseries and creches.

We also sell drinking fountains and bottle fillers as separate units. From wall-mounted drinking fountains to recessed bottle fillers, we're sure to have a drinking water solution that meets the requirements of your schools. Visit our drinking fountains page to see the whole range.
