Multi Bottle Filling Trough (Non-Chilled)

Product Code: MBFT

If you require quick hydration for more than one student then our multi bottle filling station with WRAS approved taps is the answer. Our purpose made bottle filler has been designed to be easily installed and includes a fixed grating to avoid trapped fingers and a fully enclosed front edge. Press button taps make it easy to operate and the on / off function saves water rather than time flow taps which will run on after the bottle is filled. Provide student hydration whilst helping save water and reducing single use plastic bottle waste.

Delivery

In stock usually 3 - 5 working days

Tech specs

WRAS approved push button taps
On / off taps to conserve water
Fixed grating which is removable for ease of cleaning
1.5 inch waste fitting
Length: 1000mm
Projection: 245mm
Height: 446mm
To ensure the proper functioning and longevity of this unit, a Y-strainer or filter must be installed as part of the water supply system. The Y-strainer / filter is essential for protecting the internal components and maintaining the correct flow characteristics of the tap. Failure to install a Y-strainer or filter will result in the warranty being void.

Related Products

As well as single use wall mounted bottle fillers we also offer trough style multi bottle fillers
