

## Outdoor Bottle Filling Station

Product Code: M-OBF

These heavy duty outdoor bottle filling units are available in stainless steel or a green powder coated finish. The heavy duty construction ensures they are suitable for outdoor use and will withstand a lot of use.

Press button operation with internal solenoid valve requiring 6AA batteries. The internal bottle filling recess will take large water bottles. Supplied with heavy duty anchor bolts with the option of an in ground anchor plate to cast into your concrete base. Waste water can either be connected to your waste water system or discharged into a soakaway. Please check that your local water board accepts soakaways beforehand. The outdoor bottle filler is environmentally friendly providing a fast, convenient way to obtain drinking water, and promotes the use of refillable water bottles.

To ensure the proper functioning and longevity of this unit, a Y-strainer must be installed as part of the water supply system. The Y-strainer is essential for protecting the internal components and maintaining the correct flow characteristics of the tap. Failure to install a Y-strainer will result in the warranty being void

Please ensure that these are drained down and isolated in cold weather to avoid damage to the unit.

### Compliant Regulations

All internal water fittings are WRAS approved  
[Full approval details for your Water Board are downloadable here](#)
