## Multiple Drinking Bottle Filling Station Trough

Product Code: MBFS

Filling re-usable drinking water bottles helps to reduce plastic waste going into landfill sites and ending up in the worlds oceans. Encouraging your pupils to drink tap water helps promote hydration with reported benefits in attention whilst teaching them the importance of environmental impact. Our trough style bottle filling units can be fitted with multiple swan neck bottle filling taps.

### Delivery

Optional plastic or chrome bottle traps

To ensure the proper functioning and longevity of this unit, a Y-strainer or filter must be installed as part of the water supply system. The Y-strainer / filter is essential for protecting the internal components and maintaining the correct flow characteristics of the tap. Failure to install a Y-strainer or filter will result in the warranty being void.
