Junior Height Drinking Fountain With WRAS Apporved Tap (Non-Chilled)

Product Code: DFFSJ-WRAS

These children's drinking fountains cram all the features of our regular drinking fountains into a child-friendly package, making them ideally suited to nurseries, creches, infant and junior schools - or any educational establishment that caters to younger children.

Free from corners and sharp edges, these children's water fountains also come with a removable undershroud to protect your pupils and prevent them from damaging your pipework. Each unit is supplied with wall-mounting brackets, a 32mm waste fitting and a fully WRAS-approved bubbler tap.

Delivery

Typically 2 to 3 working days
Next working day delivery available for orders placed before 11.30am (at extra cost to standard delivery)

Tech specs

Material: 1.6mm thick stainless steel (304 grade)
Width: 305mm
Depth (front to back): 350mm
Height (top to bottom): 760mm plus 75mm splashback
Waste fitting: 32mm
To ensure the proper functioning and longevity of this unit, a Y-strainer or filter must be installed as part of the water supply system. The Y-strainer / filter is essential for protecting the internal components and maintaining the correct flow characteristics of the tap. Failure to install a Y-strainer or filter will result in the warranty being void

Extras

You'll also need a waste trap to go with your junior sized drinking fountain. We'd recommend the following:

Traps
Plastic bottle trap (32mm)

What is WRAS approval?

The WRAS (which stands for Water Regulations Advisory Scheme) is a voluntary scheme for manufacturers of drinking water fittings. It is used to demonstrate conformity with the Water Supply (Water Fittings) Regulations 1999, which are intended to prevent the wasteful use of drinking water and to ensure that it is safe for human consumption.

You can rest assured that the bubbler taps that come with these junior drinking water fountains are WRAS-approved.
