Stainless Steel Boot Wash

Product Code: SSBW

The sink is ideal for cleaning muddy and dirty boots when coming inside the building.

Stainless steel floor mounted boot wash sink with support rail, boot cleaning brush, lever operated water supply hose and valve. The bristle foot pad helps clean the soles of your footwear and holds your boot and foot firmly whilst you manually clean dirt and debris off with the hand held brush. The water supply is turned on and off by a lever valve mounted on the rear platel, the hand rail gives extra support and balance whilst cleaning takes place.

Delivery

In stock usually 1 to 2 working days.
