

Round Wash Basin

Product Code: RWB

The rounded front wash basin is ideal for schools where the round front design offers a safer edge for use by children. The deeper bowl helps prevent splashing and aids in keeping water off of the floor.

The wash basin is manufactured from stainless steel and polished to a satin finish.

The wash hand basin is supplied with a concealed wall fixing bracket and lower wall fixing holes to prevent the basin being lifted off the bracket. The round front basin can be supplied with no, one or two tapholes to suit your requirements and is supplied complete with a 32mm flush grated waste fitting.

Delivery

From stock typically 1 to 2 working days

Tech Spec

Material grade 304 stainless steel
