Elite Stainless Steel Wash Trough

Product Code: ELITE

If you're specifying a wash trough where appearance matters as much as performance, the Elite Wash Trough is designed for exactly that. It's a higher-end option with a cleaner, more refined finish than entry-level troughs - ideal when you want a smarter look for your school or commercial washroom without compromising durability. Available in three standard sizes of 1200mm, 1800mm and 2400mm long.

All of our elite stainless steel wash troughs come with a 38mm flush-grated waste fitting and integral wall-fixing points as standard. You can also choose to add taps, and traps if so desired.

Delivery

Typically 1 to 2 working days

The Elite Wash Trough is supplied securely packed for transit.
Standard delivery is available to UK mainland addresses.

Tech specs

Material: 1.6mm thick stainless steel, grade 304
Lengths: 1200mm (two users), 1800mm (three users) and 2400mm (four users)
Depth (front to back): 432mm
Trough depth: 111mm at the deepest point on the trough with 24mm splashback
Tap holes: Drilled to order
Waste fitting: 38mm, flush-grated.
Registered design.

Key Features and Benefits

Upmarket finish and design – a more premium, visually pleasing option than standard troughs
Suitable for busy environments – built for frequent daily use in education and commercial settings
Easy-clean surfaces – practical for facilities teams and routine maintenance
Spec-friendly choice – a strong option for projects where presentation is a priority

What's Included

Elite Wash Trough unit (as specified)
38mm flush grated waste fitting

Extras

Each large wash trough in stainless steel can be supplied with these optional extras:

Taps
Time-flow taps
Lever-operated mixer taps
Infrared basin taps
Knee-operated basin taps

Traps
Plastic bottle trap (38mm)
Brass bottle trap, chrome-plated with chrome flange and waste pipe

To ensure a safe hand-washing temperature, we would also recommend installing a TMV3 thermostatic mixing valve.

DfE & BS EN 14296 Compliance

This wash trough is manufactured in accordance with BS EN 14296:2015+A1:2018 – Sanitary appliances – Communal washing troughs and is suitable for installation in schools, colleges and other educational facilities.

Designed to form part of a Department for Education (DfE) compliant washroom installation, the trough incorporates an integral upstand and is intended to be installed alongside contractor-supplied wall finishes, splashbacks, concealed services and access panels where required by the project specification.

Overall compliance with the Department for Education School Output Specification is achieved through the completed washroom installation.
