Stainless Steel Trough Urinals 900mm To 2400mm Long

Product Code: UWHC

Our stainless steel trough urinals make a hygienic, cost-effective alternative to individual urinal bowls. The heavy duty stainless steel construction means that they're not only long-lasting and easy to clean, but vandal-resistant too. Each school trough urinal also comes with a white plastic auto-flushing cistern included which makes these units unbeatable value for money.

The fact that these stainless steel urinals are wall-mounted means they can be fixed at an appropriate height for your pupils, making them suitable for junior schools, secondary schools, sixth forms and colleges. In addition to our six standard sizes, we can also supply these units in any length, made to order, up to 3000mm.

Delivery

Standard lengths: 900mm, 1200mm, 1500mm, 1800mm, 2000mm, and 2400mm with left or right hand outlets, and top entry flush pipe connections

Typically 1 to 2 working days

Non standard lengths, back entry flushpipe connection urinals

Typically 15 to 20 working days

Tech specs

Material: 1.2mm-thick stainless steel with satin finish

Six standard lengths: 900mm, 1200mm, 1500mm, 1800mm, 2000mm and 2400mm
