Commercial Wash Trough With Press Button Taps

Product Code: WT-PB

Special bundle price of stainless steel wash trough with angled press button time flow taps. Supplied either 1600mm long with three time flow taps, 1800mm long with three time flow taps or 2400mm long with four time flow taps.

These stainless steel wash troughs are manufactured in one piece from stainless steel and are supplied with a single angled time flow press button tap per user.

The stainless steel wash troughs are supplied complete with a 38mm dome-grated waste fitting and integral wall-fixing brackets as standard.

Optional extras include traps and soap dispensers.

Delivery

Typically 1 to 2 working days

Tech specs

Material: Stainless steel, grade 304
Three standard lengths: 1600mm (three users), 1800mm (three users) or 2400mm (four users)
Depth (front to back): 442mm
Trough depth: 181mm with 30mm upstand
Tap holes: single 35mm per user / tap
Taps: supplied with one angled press button tap per user (blue markings)
Waste fitting: 38mm, dome-grated

Extras

Each wash trough in stainless steel can be supplied with these optional extras:

Traps
Plastic bottle trap (38mm)
Brass bottle trap, chrome-plated with chrome flange and waste pipe

Miscellaneous
Stainless steel deck or wall mounted soap dispensers
Paper towel dispensers in stainless steel

To ensure a safe hand-washing temperature, we would also recommend installing a TMV3 thermostatic mixing valve.

DfE & BS EN 14296 Compliance

This wash trough is manufactured in accordance with BS EN 14296:2015+A1:2018 – Sanitary appliances – Communal washing troughs and is suitable for installation in schools, colleges and other educational facilities.

Designed to form part of a Department for Education (DfE) compliant washroom installation, the trough incorporates an integral upstand and is intended to be installed alongside contractor-supplied wall finishes, splashbacks, concealed services and access panels where required by the project specification.

Overall compliance with the Department for Education School Output Specification is achieved through the completed washroom installation.
