Dual Level Wudu Basin Ablution Sink

Product Code: DBWUDU

The Dual-Level Wudu Wash Basin has been specifically designed to provide a practical, hygienic and compliant solution for ablution within educational environments. Wudu – the act of washing in preparation for prayer – is an important requirement for many pupils, and this unit enables schools to support faith provision in a safe, controlled and dignified manner.

Combining a standard hand wash basin with a lower-level foot wash sink, this regulated Wudu appliance is suitable for both primary and secondary school settings, accommodating children and adults comfortably within one compact unit.

Delivery

In stock

1 to 2 working days - **Please note this item is delivered on a pallet.**

Tech Specs

Dual-Level Design - Integrated upper basin for hand and face washing, with a lower foot wash sink positioned at an ergonomic height for safe and comfortable use.

Designed for Pupils of All Ages - Suitable for both children and adults, making it ideal for primary schools, secondary schools and further education settings.

Cost-Effective Installation - A combined unit reduces installation time, labour and associated material costs compared to installing separate basins.

Splash-Reducing Contours - Carefully shaped bowl design helps minimise splashing, keeping surrounding areas cleaner and reducing slip risks.

Hygienic & Easy to Maintain - Manufactured from high-quality ceramic for durability, stain resistance and ease of cleaning — essential for busy school washrooms.

Safe & Practical Installation - Designed for secure floor and back-to-wall mounted installation with concealed pipework, creating a clean, tamper-resistant and professional finish.

Suitable for High-Traffic Environments - Ideal for school prayer rooms, faith spaces and multi-faith facilities.

Modern, Professional Appearance - Contemporary styling designed to complement modern school washroom environments.

Basin Dimensions

- 450mm front to back
- 580mm wide (top basin)
- 375mm wide (bottom basin)
- 860mm overall height

- Supplied with two wastes, handwash tap, foot wash valve and nozzle.
- Interconnecting waste pipework is included free of charge as standard, although we recommend using your own pipework for the installation.
- Some instructions may show mixing valves - these are not included.
