

KWC DVS Miranit Double Quadro Wash Basin

Product Code: ANMW421

The KWC DVS Quadro double wash basin unit is manufactured from the strong and durable MIRANIT resin-bonded mineral material, finished in a smooth, non-porous Alpine White gelcoat that resists temperatures up to 80°C. Its seamless design and easy-to-clean surface make it ideal for busy school washrooms where hygiene and durability are essential.

This wall-mounted double basin features two wash basins in a 1400mm long unit with a contoured rear edge, a three-sided apron, and an integrated back panel with pre-formed fixing holes for secure and stable installation. A wall mounting kit with hanger bolts and dowels is included - please check your wall type to ensure compatibility before fitting.

Both basins come with a pre-drilled 35mm tap hole for quick and simple tap installation. Designed to withstand daily use, the high-strength, fracture-resistant material provides reliable, long-term performance in demanding school settings.

Delivery

In stock, lead time will be 3–5 days.

Tech specs

Material: Miranit resin bonded mineral material

MIRANIT products are crafted from a single mould without the use of adhesive seams or joints, resulting in a sleek, seamless finish. Known for their exceptional stability, elegant appearance, and long-lasting durability, these products feature a smooth, pore-free Gelcoat surface that is hygienic and easy to maintain. The name MIRANIT represents a robust composite material made of approximately 80% natural minerals—such as marble, sandstone, and quartz sand—and about 20% high-quality unsaturated polyester resin. Quartz, one of the hardest substances found in the earth's crust, contributes to the material's strength. When combined with the resin, the result is a highly stable, formable compound ideal for precision cast moulding.
