Stainless Steel Junior Wash Trough 370mm Projection

Product Code: WT-370

These trough sinks are manufactured from high-quality stainless steel, ensuring long-lasting durability, hygiene, and efficiency in commercial and industrial settings. They come in three practical sizes: 1500mm, 1800mm, and 2400mm.

Each trough features a 370mm projection, a central waste outlet, and can be supplied with tap holes drilled to suit your specifications. Optional extras include front support legs, taps, and traps, if required.

Our wash troughs are in stock and ready for fast delivery across the UK. Designed for quick installation and long-term performance, they offer a reliable solution that meets both functional and aesthetic requirements.

Delivery

In stock usually 1 to 2 working days.

Tech specs

Infrared basin taps.
Please select from options if required or go to tap section for more choices.

Traps:
Plastic bottle trap (38mm).
Brass bottle trap, chrome-plated with chrome flange and waste pipe.

DfE & BS EN 14296 Compliance

This wash trough is manufactured in accordance with BS EN 14296:2015+A1:2018 – Sanitary appliances – Communal washing troughs and is suitable for installation in schools, colleges and other educational facilities.

Designed to form part of a Department for Education (DfE) compliant washroom installation, the trough incorporates an integral upstand and is intended to be installed alongside contractor-supplied wall finishes, splashbacks, concealed services and access panels where required by the project specification.

Overall compliance with the Department for Education School Output Specification is achieved through the completed washroom installation.
