Cosmetal Floor Standing Chilled Drinking & Bottle Filling Fountain

Product Code: AAF-RIVERUP-FS

Cosmetal RiverUP-FS Floor Standing Chilled Drinking & Bottle Filling Unit

The RiverUP-FS is a highly efficient chilled drinking water station designed for busy school environments where reliability and hygiene are essential. Equipped with both a swan-neck bottle filler and a comfortable drinking bubbler, it provides quick access to chilled water throughout the day. Its sturdy stainless steel construction and ice-bank cooling technology ensure long-lasting performance even under constant use.

Delivery

Usually dispatched from stock within 2 - 3 working days.

Key Features & Benefits

Provides up to 30 litres of chilled water per hour—ideal for high-traffic school corridors and communal areas
Swan-neck bottle filler makes it easy for students to refill reusable bottles
Chrome-plated bubbler offers a hands-free drinking option
Manufactured from 1.2mm thick 304 grade stainless steel for long-term durability
Satin finish resists marks and maintains a clean appearance
Plug-and-play 240V electrical connection with UK plug
Minimum 2-bar working pressure
Ice-bank cooling system reduces operating costs
NSF REG4 and CE certified for regulatory compliance
Suitable for indoor installation within education facilities
An optional installation rail can be supplied, incorporating the standard components required to connect the water cooler to the mains water supply
The water cooler is supplied with floor-standing feet and has no floor fixing points. Where additional security is required, an optional rear cowl is available, providing secure wall fixing, concealing pipework, and supporting compliance with BREEAM requirements.
Units need to be installed on a level floor.
The items listed are supplied strictly on a return-to-base basis, with all repairs and warranty work to be carried out at the distributor's premises.

What’s Included

Floor standing stainless steel chilled drinking fountain
Pre-fitted bubbler tap
Integrated 23cm bottle filling tap

Optional Add-Ons:

Installation rail with PRV, non-return valve, water block, and replaceable filter
Rear wall and floor cowling for cleaner installation and BREEAM-aligned fixing. The rear cowl is used to securely fix the unit to the back wall and conceal pipework. Complies with BREEAM guidelines.

For Use In

Primary & secondary schools
Colleges & sixth-form buildings
Sports halls and changing areas
Indoor student common rooms
Refillable bottle schemes and hydration points
