

Cosmetal Floor Standing Chilled Drinking & Bottle Filling Fountain

Product Code: AAF-RIVERUP-FS

Cosmetal RiverUP-FS Floor Standing Chilled Drinking & Bottle Filling Unit

The RiverUP-FS is a highly efficient chilled drinking water station designed for busy school environments where reliability and hygiene are essential. Equipped with both a swan-neck bottle filler and a comfortable drinking bubbler, it provides quick access to chilled water throughout the day. Its sturdy stainless steel construction and ice-bank cooling technology ensure long-lasting performance even under constant use.

Delivery

Usually dispatched from stock within 2 - 3 working days.

Key Features & Benefits

- Provides up to 30 litres of chilled water per hour—ideal for high-traffic school corridors and communal areas
- Swan-neck bottle filler makes it easy for students to refill reusable bottles
- Chrome-plated bubbler offers a hands-free drinking option
- Manufactured from 1.2mm thick 304 grade stainless steel for long-term durability
- Satin finish resists marks and maintains a clean appearance
- Plug-and-play 240V electrical connection with UK plug
- Minimum 2-bar working pressure
- Ice-bank cooling system reduces operating costs
- NSF REG4 and CE certified for regulatory compliance
- Suitable for indoor installation within education facilities

What's Included

- Floor standing stainless steel chilled drinking fountain
- Pre-fitted bubbler tap
- Integrated 23cm bottle filling tap

Optional Add-Ons:

- Installation rail with PRV, non-return valve, water block, and replaceable filter
- Rear wall and floor cowl for cleaner installation and BREEAM-aligned fixing

For Use In

- Primary & secondary schools
- Colleges & sixth-form buildings
- Sports halls and changing areas
- Indoor student common rooms
- Refillable bottle schemes and hydration points
