

Installation Rail

Product Code: AAF-RAIL

Water Cooler Installation Rail Kit

This installation rail kit provides a safe, tidy and reliable method for fitting water coolers within school environments. Designed to support models such as the RIVERUP-WM, RIVERUP-FS and CENIN45, it ensures that all key safety components are built into one compact assembly, helping reduce installation time and improving long-term system protection.

Delivery

Normally delivered from stock within 1 - 2 working days
