Cooler Cowling

Product Code: AAF-COWL

Cooler Cowling for Floor Standing Water Coolers

This strong, anthracite grey cooler cowling is designed to securely house and stabilise the RIVERUP-FS water cooler in school environments. It conceals pipework, protects the unit from accidental knocks, and provides a safe, tidy installation—ideal for corridors, dining areas and other high-traffic student spaces.

The cowling also meets BREEAM requirements for floor and wall fixing of water coolers. BREEAM (Building Research Establishment Environmental Assessment Method) is a leading sustainability standard used in the UK education sector, ensuring that buildings meet strict criteria for safety, durability, environmental performance and responsible installation practices.

Delivery

Usually supplied from stock with a 1 - 2 working day delivery window

Key Features & Benefits

Fully complies with BREEAM floor and wall fixing requirements for water cooler installations
Rear and floor fixing points keep the cooler securely anchored
Anthracite grey finish blends well with modern school interiors
Helps safeguard the cooler from movement or tampering in busy areas
Provides a clean, enclosed appearance for exposed pipework
Specifically designed for use with the RIVERUP-FS unit

What’s Included

Anthracite grey cooler cowling
All required floor and rear fixing hardware

For Use With / In

RIVERUP-FS floor-standing water coolers
School corridors, dining halls and communal indoor spaces
Student hydration stations and bottle refill points
BREEAM-compliant installations requiring safe, secure fixing
