

## Combined Drinking Fountain & Bottle Filler- Junior Height (Non-Chilled)

Product Code: DFBFFS-J

Our junior height floor standing combined drinking and bottle filling fountains provide the ultimate in practicality. Constructed from 304-grade stainless steel, these fountains are robust and with the round radius front makes the unit safe for use in high traffic areas of any nursery, school or public area.

The stainless steel undershroud is designed to protect pipework and is easily removed for cleaning and maintenance purposes. Each floor standing drinking fountain comes with inbuilt fixing brackets, a 32mm waste fitting and a WRAS approved bubbler tap and WRAS approved bottle filling tap.

### Delivery

Typically 2 to 3 working days.

Next working day delivery available for orders placed before 11.30am (at extra cost to standard delivery)

### Tech specs

Material: 1.6mm thick stainless steel (304 grade)

Width: 305mm

Depth (front to back): 350mm

Height (top to bottom): 762mm plus 75mm splashback

Waste fitting: 32mm

To ensure the proper functioning and longevity of this unit, a Y-strainer or filter must be installed as part of the water supply system. The Y-strainer / filter is essential for protecting the internal components and maintaining the correct flow characteristics of the tap. Failure to install a Y-strainer or filter will result in the warranty being void.

### Extras

Your floor standing drinking and bottle filling fountain can also be furnished with the following waste trap:

*Traps*

[Plastic bottle trap \(32mm\)](#)

Y-Strainer
