

Stainless Steel Vandal Resistant Trough Urinal Bundle

Product Code: UWHC-BUN

Stainless Steel Trough Urinal System for Schools

Vandal-Resistant | Complete Installation Bundle

Built for High-Use School Washrooms

Designed specifically for schools, colleges and education facilities, this stainless steel trough urinal system provides a robust, low-maintenance solution for washrooms where durability and hygiene are essential.

Unlike standard ceramic or lightweight alternatives, this system is engineered to withstand heavy daily use, misuse, and high footfall, making it ideal for pupil washrooms.

Complete System – Ready to Install

Supplied as a fully matched bundle, this system includes all key components required for installation, helping reduce time on site and avoid compatibility issues.

Pre-configured flushing system
All core components supplied together
Faster, simpler installation

This makes it particularly suitable for school refurbishments and fast-track projects.

Designed to Reduce Maintenance in Schools

School washrooms are among the most demanding environments.

This system is designed to help:

Minimise damage and vandalism
Reduce cleaning time
Lower ongoing maintenance requirements

Smooth stainless steel surfaces and a simple, open design make cleaning quicker and more effective for site teams.

Water Regulation Compliant & Efficient

School buildings must comply with UK water regulations, which require urinals to have a flush control system to prevent unnecessary water use.

This system includes a Marnic Water Watch as standard.

Benefits for schools:

- Helps meet water efficiency requirements
- Prevents continuous flushing
- Reduces water consumption and utility costs
- Automatic operation with no manual input required

Including this as part of the system avoids the need for additional components or retrofitting later.

Durable Stainless Steel Construction

Manufactured from 304 grade stainless steel, this unit is designed for long-term use in busy school environments.

Key features:

- Vandal-resistant construction
- Satin finish for easier cleaning
- Integrated flushing sparge system
- Acoustic pads to reduce noise

Sizes to Suit Different Washroom Layouts

Available in multiple lengths to suit a range of pupil numbers and layouts:

- 900mm
- 1200mm
- 1500mm
- 1800mm
- 2000mm
- 2400mm

Options include left or right-hand outlet configurations.

What's Included

Each system is supplied complete with:

- Stainless steel trough urinal
- Stainless steel flushing cistern
- Downpipe and fittings
- Waste and trap componentsrap cover
- Marnic Water Watch flush controller

Fast Delivery for School Projects

All standard sizes are held in UK stock for reliable supply.

- 1–2 working day delivery

Ideal for refurbishment programmes and term-time works

A Practical Choice for Education Settings

This system is commonly used in:

- Primary schools
- Secondary schools
- Colleges
- Sports facilities

Because it offers a reliable, easy-to-maintain solution where long-term performance is more important than the lowest upfront cost.
